Surface the validated data driving your workforce with Fuel50's Analytics

Fuel50's Analytics gives you access to the workforce data needed to support your organizational strategy. Explore multiple levels of your HR and employee metrics with intuitive, detailed reports, all accessible through a single dashboard.

Uncover the information you need to make data-driven talent decisions.
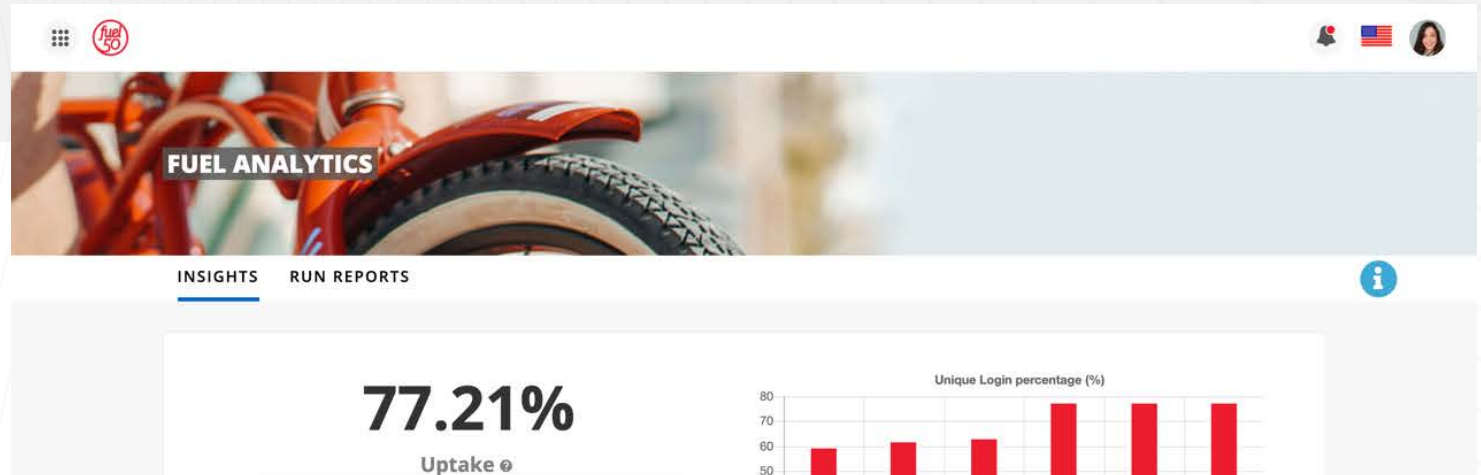

What Fuel50 Analytics includes

- Gain visibility into key metrics at a glance and generate robust reports from just one dashboard

- Filter data-points based on specific personalization data — Values, Talents, Fit and Agility

- Access reports from most areas of the platform, including your marketplace — Learning, Gigs, Mentors, Vacancies, Projects and more.

- Optimize your search criteria by category including time range, function and location with the ability to widen your scope to screen for ex-employees within your searches.
